

Claims

- [c1] 1.A device for dispensing grout, comprising:
a grout holding member;
a plunger member, within said grout holding member;
and
first nozzle member, in communication with said grout holding member.
- [c2] 2.The device of claim 1, further comprising a second nozzle member.
- [c3] 3.The device of claim 1, further comprising a removable first nozzle.
- [c4] 4.The device of claim 1, in combination with a source of compressed air.
- [c5] 5.The device of claim 1, wherein said grout holding member is a cylinder.
- [c6] 6.The device of claim 1, wherein said plunger member is a disc shaped.
- [c7] 7.The device of claim 1, wherein said plunger member expands to fill a horizontal plane within said grout holding member.

[c8] 8.The device of claim 1, wherein said first nozzle member is adapted to receive compressed air.
